To Whom It May Concern,

In response to APS. request for a rate hike; I as a retired elderly person on Social Security with no other income do not think this commission should approve any rate hike till the economy gets better.

I've done all I can to reduce my heating and cooling bill by going into debt to replace my old furnace and AC with energy efficient units to reduce my bills, now with any granted increase in rates will set my bills right back to what they were on my old furnace and AC units.

This increase if granted will hurt me and other middle and low income people, because of lack of employment and other rising prices in food gas and other things.

I have never written a letter  
like this on any increase of  
rate hikes but now I think its  
time to hear my dis-approval.

Hopefully you will do the  
right thing and hold off on any  
rate hike for APS or any  
utility.

Thank you for your time  
in this matter.

Respectively
